KITCHENS & BATHROOMS PAINT MATT
PRODUCT CODE: KBM 1 & TKM 1000 Tint Base

TECHNICAL DATA SHEET

Product Description
KITCHENS & BATHROOMS PAINT MATT is premium quality water-based enamel paint for interior use.

Intended Uses
- For application to suitably primed new and old cement plaster walls, fibre-board, ceiling board, gypsum plaster, metal and wood.
- Ideal for Kitchens and Bathrooms where a hard-wearing finish is required.

Features
- 10 times more washable than conventional paint.
- A tough wall coating and a hard-wearing finish.
- A water based enamel paint.
- Quick drying - 2 coats can be applied in one day.
- Durable, Stain and Steam resistant and easily cleaned.
- No added lead.
- 15 Year Quality Guarantee. (Refer to terms & conditions at www.plascon.com)

Storage and Packaging
Store away from direct sun, heat and severe cold.
Packaging: 2,5 L (white and Pastel bases only)
KITCHENS & BATHROOMS PAINT MATT
PRODUCT CODE: KBM 1 & TKM 1000 Tint Base

Surface Preparation

Ensure that surfaces are clean dry & firm and free from dust, dirt, grease and oil before painting.

1. NEW WORK:
   1.1 Cement plaster, concrete, unglazed brickwork, fibre-cement, ceiling boards:
       Prime entire area with PLASCON PLASTER PRIMER (UC 56).
   1.2 Gypsum plaster (e.g. Rhinolite, Cretastone):
       Prime entire area with PLASCON PLASTER PRIMER (UC 56).
   1.3 Wood:
       Sand smooth using 150 grit paper working in the direction of the grain, dust off. Wash resinous areas
       with LACQUER THINNERS (ILS 1). Seal knots and resinous areas with PLASCON KNOT SEAL (PK 2). Prime
       entire surface with PLASCON WOOD PRIMER (UC 2).
   1.4 Mild steel:
       Degrease with PLASCON AQUASOLV DEGREASER (GR 1). Rinse thoroughly with water. Remove any
       rust by coarse sanding, mechanical grinding or wire brushing. Prime surfaces the same day with
       METALCARE MILDE STEEL PRIMER (UC 501).
   1.5 Galvanised steel:
       Clean with METALCARE GALVANISED IRON CLEANER (GIC 1). Rinse thoroughly with water until a water
       break free surface is obtained or repeat process. Prime the same day with METALCARE GALVANISED
       IRON PRIMER (GIP 1).

2. PREVIOUSLY PAINTED SURFACES:

2.1 Previously painted surfaces in good condition:
   Remove loose and flaking paint back to a sound substrate and a firm edge by scraping and sanding.
   Clean with POLYCELL SUGAR SOAP POWDER solution to remove all contaminants. Rinse with clean
   water to remove all traces of SUGAR SOAP. Spot prime bare areas with appropriate primer. Sand glossy
   enamel surfaces to an even matt finish, dust off.

2.2 Previously painted surfaces in poor condition:
   Completely remove paint by most appropriate means e.g. scraping or course sanding. Clean with
   POLYCELL SUGAR SOAP solution, rinse with clean water and allow to dry. Proceed as for new work in
   point 1 above.

2.3 Chalky surfaces:
   Remove as much of the chalky surface as possible by scrubbing with a POLYCELL SUGAR SOAP solution.
   Rinse with clean water and allow to dry. Seal with PLASCON BONDING LIQUID (CVI 14) and allow to dry
   for 16 hrs.

3. FILLING
   Fill defects with appropriate POLYCELL FILLER. Spot prime with PLASCON PLASTER PRIMER (UC 56). Fill
   wood with POLYCELL POLYFILLA MENDALL 90 and spot prime with PLASCON PLASTER PRIMER (UC 56).

Application

• Apply two or more coats to prepared surfaces to achieve complete obliteration.
• 3 coats may be needed for some low hiding colours.

Cautions

• Avoid painting during inclement weather or if temperature is below 10 °C.
• To ensure that colours on a project are consistent check that batch numbers and product codes are the same

Tint Base

• The tint base containers are under filled to levels which are specific for the tint base to allow for a calculated
  volume of colourants to be added. The volume indicated on the container is only achieved after the addition of
  all prescribed colourants as per the formulation.
• The tint base and the colourants are unfinished intermediate products which are not recommended for use
  by themselves. A finished product is only produced once the prescribed quantities of colourants have been
  thoroughly mixed with the tint base.
• When mixed to a finished product its technical features, product information, application and surface
  preparation details comply with that of KITCHENS & BATHROOMS PAINT MATT.

Tinting Procedure

• Select the required colour and reference no. from the PLASCON INSPIRED COLOUR system, other suitable
  system or colour cards and locate the applicable formulation from the tables.
• Certain colour choices may require more than two coats to achieve full obliteration, (see computer
  formulations for details in remark column prior to tinting).
• Select the required tint base and volume for tinting and set the tinting machine to deliver the correct amount
  of colourants as per formulation. Inject all required colourants, close container and shake on mechanical
  shaker for 5 minutes.
• Note: UNDER NO CIRCUMSTANCES TINT COLOURS FROM (KBM 1) WHITE - ONLY USE THE PRESCRIBED
  TINT BASE.

Safety Precautions

- Keep out of reach of children.
- Ensure good ventilation during application and drying.
- Do not pour paint down the drain.
- In case of skin contact, wash with soap and water or a recognised skin cleaner.
- Avoid contact with eyes – In case of contact, rinse eyes immediately with plenty of water and seek medical advice if symptoms persist.
- Harmful if swallowed. Do not induce vomiting. Seek medical attention.
- Refer to Safety Data Sheet for complete information.

DISCLAIMER:
The recommendations contained herein are given in all good faith and are meant to guide the specifier or the user. They are based on results gained from our tests and experiences and are believed to be reliable. No guarantee is implied by the recommendations contained herein since conditions of use, method of application and cleanliness of the substrate prior to painting are beyond our control.

NB: Technology may change with time necessitating changes to this Technical Data Sheet (TDS). It is the responsibility of the user to ensure that the latest TDS is being used.

NB: TO ORDER: Quote product name, product code number, packaging and colour.
