# Section 2. Hazards identification

| Classification of the substance or mixture | FLAMMABLE LIQUID- Category 3  
SKIN CORROSION/ IRRITATION-Category 2  
ACUTE TOXICITY - Category 4  
SERIOUS EYE DAMAGE/ IRRITATION- Category 2  
SPECIFIC TARGET ORGAN TOXICITY SINGLE EXPOSURE- Category 3  
ASPIRATION TOXICITY- Category 1  
AQUATIC TOXICITY CHRONIC- Category 2 |
| Label elements according to | SANS 10234: 2008 |
| Hazard pictograms | |
| Signal word | Danger |
| Hazard statements | H226- Flammable liquid and vapour.  
H303- May be harmful if swallowed.  
H304- May be fatal if swallowed and enters airways  
H312- Harmful if in contact with skin  
H315- Causes skin irritation.  
H319- Causes serious eye irritation  
H332- Harmful if inhaled  
H336- May cause drowsiness or dizziness |
TRADEPRO GLOSS ENAMEL (UWE range)

Precautionary statements

General: P101- If medical advice is needed, have product container or label at hand.
P102- Keep out of reach of children.
P103- Read label before use.

Prevention: P202- Do not handle until all safety precautions have been read and understood.
P501: Dispose of contents/containers in accordance with local regulation.
P233- Keep container tightly closed.
P261- Avoid breathing vapours/spray.
P262- Do not get in eyes, on skin, or on clothing.
P270- Do not eat, drink or smoke when using this product.
P271- Use only outdoors or in a well-ventilated area.
P273- Avoid release to the environment.
P280- Wear protective gloves/protective clothing/eye protection/face protection.
P285- In case of inadequate ventilation wear respiratory protection.
P235+410- Keep cool. Protect from sunlight

Response: P314- Get medical advice/attention if you feel unwell.
P391- Collect spillage.
P301+330+331- IF SWALLOWED- Rinse mouth. Do NOT induce vomiting.
P303+361+353- IF ON SKIN (or hair)- Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+340: IF INHALED- Remove person to fresh air and keep comfortable for breathing.
P305+351+338- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
P333+313- If skin irritation or a rash occurs: Get medical advice/attention.
P337+313- If eye irritation persists get medical advice/attention.
P361+364- Take off immediately all contaminated clothing and wash it before reuse.
TRADEPRO GLOSS ENAMEL (UWE range)

P362+364- Take off contaminated clothing and wash it before reuse.
P370+380- In case of fire: Evacuate area.

Storage

- P410- Protect from sunlight.
- P402+404- Store in a dry place. Store in a closed container.
- P403+235- Store in a well ventilated place. Keep cool.

Other hazards which do not Result in classification : None identified

---

**Section 3. Composition/information on ingredients**

**Substance/mixture** : Mixture

**Other means of identification** : Solvent based enamel

</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.
Section 4. First aid measures

Description of necessary first aid measures

Eye contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact: Wash contaminated skin with soap or a recognised skin cleaner and plenty of water. Avoid the use of solvents. Remove contaminated clothing and shoes. Get medical attention if symptoms persist.

Ingestion: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact: Highly irritating and risk of irreversible damage.
Inhalation: Harmful if inhaled. Irritating and narcotic. Can affect central nervous system.
Skin contact: Harmful if in contact with skin. Risk of dermatitis.
Ingestion: Harmful. May cause lung damage if swallowed.

Over-exposure signs/symptoms

Eye contact: Adverse symptoms may include pain or irritation, watering or redness.
Inhalation: Adverse symptoms may include nausea or vomiting, headache, drowsiness/fatigue or dizziness/vertigo.
Skin contact: Adverse symptoms may include irritation or redness.
Ingestion: May cause damage to organs through prolonged or repeated exposure.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments: No specific treatment.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media: Use an extinguishing agent suitable for the surrounding fire such as foam, CO2 or dry powder. Use fog to cool and control.
TRADEPRO GLOSS ENAMEL (UWE range)

Unsuitable extinguishing media: Do NOT use water jets.

Specific hazards arising from the chemical: In a fire or if heated, a pressure increase will occur and the container may burst. Can form explosive vapour/air mixture. Static discharge hazard. Cool containers in case of fire.

Hazardous thermal decomposition products: Decomposition products may include the following materials:
- Carbon dioxide
- Carbon monoxide
- Metal oxide/oxides

Special protective actions
For fire-fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

For emergency responders: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

Methods and materials for containment and cleaning up

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth.
TRADEPRO GLOSS ENAMEL (UWE range)

vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling: Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Keep away from ignition sources. No open flames. No smoking. Avoid free fall of liquid – use earthing.

Conditions for safe storage, Including any Incompatibilities: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. Do not reuse container.

Section 8. Exposure controls/personal protection

Occupational exposure limits:

Recommended monitoring Procedures: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

Appropriate engineering controls: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
TRADEPRO GLOSS ENAMEL (UWE range)

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection : Avoid direct contact. Never touch eyes with dirty hands or gloves. Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Hand protection : Avoid direct contact. Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection : Avoid direct contact. Appropriate footwear and any additional skin protection Measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : Use a properly fitted, air-purifying or air-fed respirator with organic vapour filter cartridge (e.g. A1B1E1 type) complying with an approved standard if a risk assessment indicates this is necessary e.g. in case of insufficient ventilation. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Viscosity : 68 – 72KU

### Section 10. Stability and reactivity

**Reactivity** : Inert - no reaction with fire-fighting water.

**Chemical stability** : Stable under normal conditions.

**Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.

**Conditions to avoid** : Could generate static – Use earthing. Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.

**Incompatible materials** : No data available.

**Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Information on the likely routes of exposure: Inhalation, skin contact

**Potential acute health effects**

- **Eye contact**: Highly irritating and risk of irreversible damage.
- **Inhalation**: Harmful if inhaled. Irritating and narcotic. Can affect central nervous system.
- **Skin contact**: Harmful if in contact with skin. Risk of dermatitis.
- **Ingestion**: Harmful. May cause lung damage if swallowed.

**Symptoms related to the physical, chemical and toxicological characteristics**

- **Eye contact**: Adverse symptoms may include pain or irritation, watering or redness.
- **Inhalation**: Adverse symptoms may include nausea or vomiting, headache, drowsiness/fatigue or dizziness/vertigo.
- **Skin contact**: Adverse symptoms may include irritation or redness.
- **Ingestion**: May cause damage to organs through prolonged or repeated exposure.

**Potential Chronic health effects**

- **General**: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
- **Carcinogenicity**: No known significant effects or critical hazards.
- **Mutagenicity**: No known significant effects or critical hazards.
- **Teratogenicity**: No known significant effects or critical hazards.
- **Developmental effects**: No known significant effects or critical hazards.
- **Fertility effects**: No known significant effects or critical hazards.

**Mobility in soil**

- Soil/ water partition coefficient ($K_{OC}$): No data available.
- Mobility: No data available.

**PBT/vPvB data**

- P: No data available. B: No data available. T: No data available.

**Other adverse effects**

- No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods**

- This material and its container must be disposed of in a safe way. The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor – potential for spontaneous combustion. Take care with used containers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority.

---

**Product code:** TradePro Gloss Enamel (UWE range)  **Date of revision:** 18/07/2017  **Version:** 1  **Page:** 10 of 12
requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 15. Regulatory information

Safety, health and environmental regulations specific for the product:

: **Relevant information regarding authorization:** Occupational Health and Safety Act 1993 Regulation for Hazardous Chemical Substances.

: **Relevant information regarding restrictions:** None known.

: **EU regulations:** Regulation EC 1272/2008 [EU-GHS/CLP] and EU directives 67/548/EEC or EC 1999/45/EC

: **Other National regulations:** None. Standards used for PPE recommendations in Section 8: NIOSH-National Institute for Occupational Health and Safety (USA) EN 166- European standard which concerns the area of eye protection. EN 374-3 European standards for permeation and penetration. EN 141/EN 143 European standards for gas mixtures to remove specified gases and vapours or combined filters for removing solids, and/or liquid particles and specified gases and vapours.

Section 16. Other information

History
