WOODCARE FLOOR VARNISH

PRODUCT CODE: PFV 1 & 2

TECHNICAL DATA SHEET

**Product Description**
A top quality hard wearing interior clear floor coating.

**Intended Uses**
- For interior use only.
- New work or refinishing.
- Wooden floors, doors and furniture

**Features & Benefits**
- A clear and transparent finish that enhances the beauty of wood.
- Available in gloss and suede finishes.
- Quick drying. Permits complete finishing in 1 day.
- At least three coats are recommended for new surfaces.
- Low odour.
- Mar and abrasion resistant.
- Excellent resistance to water, heat, alcohol, food, fruit juices, grease and detergent.

**Application Details**

**Mixing**
- PFV 1 - Stir, but do not shake.
- PFV 2 - Stir thoroughly with a flat paddle until homogeneous.

**Method**
Brush, short nap roller

**Thinner**
No thinning required. Ready for use.

**Cleaning**
MINERAL TURPENTINE (AZH 1) or POLYCELL BRUSH CLEANER

**Drying time**
- Touch dry: 3 h @ 23 °C
- Over coating: 6 h @ 23 °C

**Storage & Packaging**
Store in a cool well ventilated area away from direct sun, heat and source of ignition.
Shelf life: 2years
Packaging: 5L
WOODCARE FLOOR VARNISH

PRODUCT CODE: PFV 1 & 2

Surface Preparation

1. NEW OR BARE WOOD
   1.1 Floors: Sand with mechanical floor sander to remove all wax build-up until a water break free surface is formed, finishing with fine grade sandpaper. Work in direction of the grain. Remove dust with vacuum.
   1.2 Other woodwork: Sand with 150 grit sandpaper, working in the direction of the grain. Dust off.

2. PREVIOUSLY VARNISHED SURFACES
   2.1 Floors: Remove old finishes completely by mechanical floor sander and treat as for new or bare wood. Alternatively, strip old finishes completely with REMOVALL ALL PURPOSE COATING REMOVER (RRA 220). Rinse with water to remove all chemical residues before re-coating. Allow to dry, sand smooth and dust off.
   2.2 Other woodwork:
      2.2.1 Existing varnish in good condition: Clean with POLYCELL SUGAR SOAP POWDER and rinse off with clean water. Sand with 220 grit sandpaper to an even matt finish to provide a key. Dust off.
      2.2.2 Existing varnish in poor condition: Strip completely by deep sanding to a bare surface or with REMOVALL ALL PURPOSE COATING REMOVER (RRA 220). If using REMOVALL rinse thoroughly with clean water, allow to dry, sand smooth and dust off.

Application

- Ready for use by brush, roller
- Apply 3 coats to new wood for a superior finish.
- Apply uniformly and avoid air bubbles.
- Sand lightly between coats with 400 grit sandpaper to improve adhesion and to de-nib. Dust off.

Caution

- NB: WOODCARE FLOOR VARNISH (PFV 1 & 2) is not suitable for parquet floors.
- Floors: Allow 12 hours drying before restricted use and 24 hours before full use of the floor.

Safety Precautions

- Always keep paint out of reach of children.
- Ensure good ventilation during application and drying.
- If accidental contact with skin should occur, wash immediately with soap and water or a recognised skin cleaner.
- Take care to avoid contact with the eyes. In case of contact, immediately rinse the eyes with plenty of water and seek medical attention.
- Harmful if swallowed. Seek medical attention and do not induce vomiting.
- Do not smoke while painting.
- Flammable. Store in a cool dry place away from heat and sparks.
- Refer to Safety Data Sheet for complete information.

DISCLAIMER:
The recommendations contained herein are given in good faith and are meant to guide the specifier or the user. They are based on results gained from our tests and experiences and are believed to be reliable. No guarantee is implied by the recommendations contained herein since conditions of use, method of application and cleanliness of the substrate prior to painting are beyond our control.

NB: Technology may change with time necessitating changes to this Technical Data Sheet (TDS). It is the responsibility of the user to ensure that the latest TDS is being used.

NB: TO ORDER: Quote product name, product code number, packaging and colour.
