PRODUCT DESCRIPTION
Superior quality emulsion paint based on a fine particle size copolymer and lightfast pigments with a fashionable smooth high opacity matt finish appearance, exceptional toughness. It is suitable for interior coating only. It is available in limited shades and white.

SALIENT PROPERTIES
Major properties are as follows:-
- Plascon Matt Hygienic Coating is washable
- is of low odor
- Low VOC meets EU standards
- Resistant to Bacteria
- Resistant to Fungi
- Resistant to Yeast
- Bacteria, fungi & yeast have been tested as per Japanese standard, JIS Z2801 which is most acceptable throughout the world. This specification is similar to ISO22196
- Test results are enclosed as per the specifications.

AREA OF USE
Plascon Matt Hygienic Coating is recommended for interior use and is ideal for use in:-
- Because of its bacteria & fungi resistant properties it is most suitable for hospitals, clinics etc.
- Kitchens, Restaurants etc.
- Food processing industries.
- Any other areas where bacteria, fungi & yeast resistance is required.

SURFACE PREPARATION
New unpainted walls
Apply one coat of Plascon Acrylic Sealer Undercoat of similar colour, then two to three coats of Plascon Matt Hygienic Coating.
Previously painted walls
Remove loose, flaking and powdery paint. If necessary porous walls should be primed with two coats of Plascon Plasco Binder then apply two to three coats of Plascon Matt Hygienic Coating.
