PLASCON SKIMMING STUCCO

TYPE: Plascon Skimming Stucco is a waterbased, quick drying putty suitable for Interior use only.

SALIENT FEATURES:
- High Solids,
- Easy to apply,
- Excellent filling & Sanding
- No sinking/cracking.

FIELD OF APPLICATION:
1. Used indoors and outdoors for filling of minor dents and other irregularities on substrates such as plaster, concrete building boards, plywood etc.
2. Can be used to design special pattern/effects. Can be used directly on a properly primed new surface. For previously painted surfaces, first apply 2 coats of Acrylic Sealer Undercoat after the necessary surface preparation. Stir content thoroughly before use.
3. For special patterns /effects /design on exterior /interior wall, 2 coats of top coat paint e.g. Vinyl Silk, Weatherguard, Eggshell, Matt Emulsion, Supergloss etc must be applied to enhance adhesion and durability. If used on the ceiling, 1 coat of Matt Emulsion is necessary.

TECHNICAL INFORMATION:
FINISH: Smooth finish.
COLOURS/SHADES AVAILABLE: White.
DRYING TIME: 1-2 hours depending on surface, texture and atmospheric conditions.
