## PLASCON UNIVERSAL HIGH OPACITY UNDERCOAT

**PRODUCT DESCRIPTION AND USES**

Plascon Universal High Opacity Undercoat is an alkyd based product specially formulated to provide a flexible, non-absorbent base for Plascon Super Gloss and other gloss finishes. It has excellent hiding power and will fill minor cracks and other blemishes. It is suitable for interior and exterior use and can be applied on wood, metal, plaster, stone etc. It should be applied over an appropriate primer. It offers excellent inter-coat adhesion between primer and top coat.

**SURFACE PREPARATION**

- **New Primed Metal, Wood or Plaster etc.**
  Ensure surface is clean and dry. Apply 1 coat of Universal High Opacity Undercoat over the appropriate primer. Allow 16 hours drying before overcoating.

- **Previously painted - Unsound surfaces**
  Remove any loose or flaky materials. Ensure surface is clean, dry and free of other defects. Apply the appropriate patch primer to affected areas. Then slightly abrade the surface to give enhanced adhesion. Apply 1 coat Universal High Opacity Undercoat.

- **Previously painted - Sound surfaces**
  Lightly abrade. Ensure the surface is clean and apply 1 coat of Universal High Opacity Undercoat.

**FINISH**

- Matt

**APPLICATION**

- Apply by brush, roller or spray.

**THINNING AND MIXING**

- With White spirit. Stir well before use.
